Estamos à disposição para dúvidas e orçamentos!

BUCHA DE BRONZE

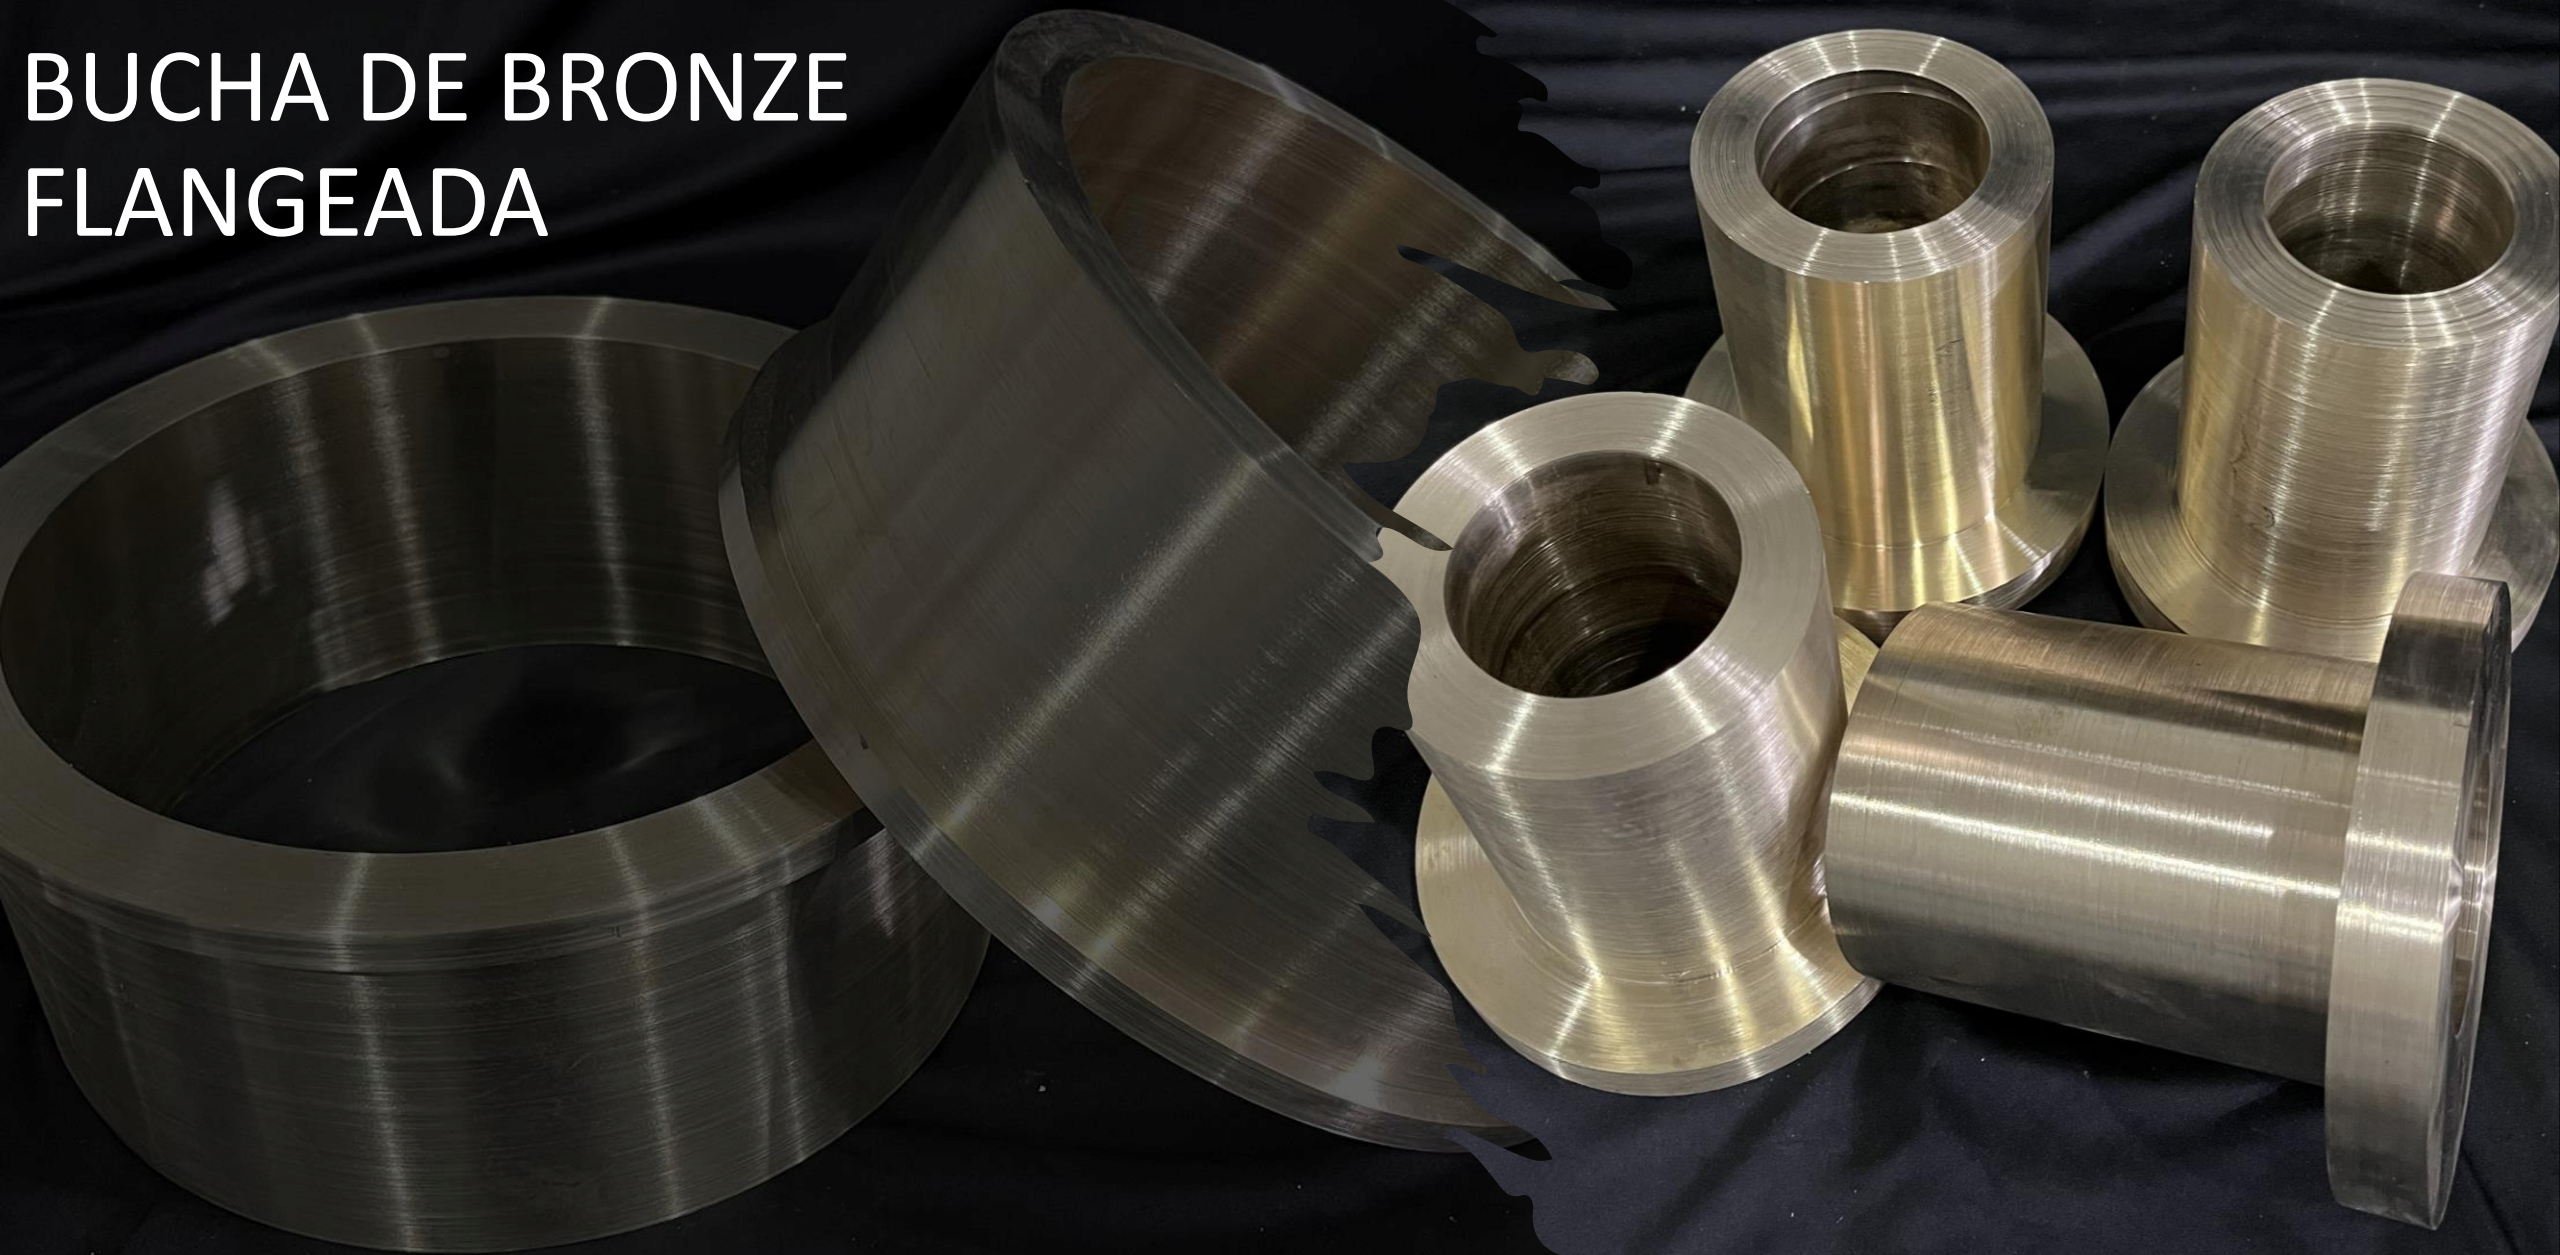

BUCHA DE BRONZE

BUCHA DE BRONZE

BUCHA DE BRONZE FLANGEADA

The image displays four precision-machined bronze flange bushings. They are arranged on a black background. One bushing is in the foreground on the left, another on the right, and two more are in the background. The bushings have a smooth, polished surface and a central bore. The text 'BUCHA DE BRONZE FLANGEADA' is overlaid in the bottom left corner.

**BUCHA DE BRONZE
FLANGEADA**

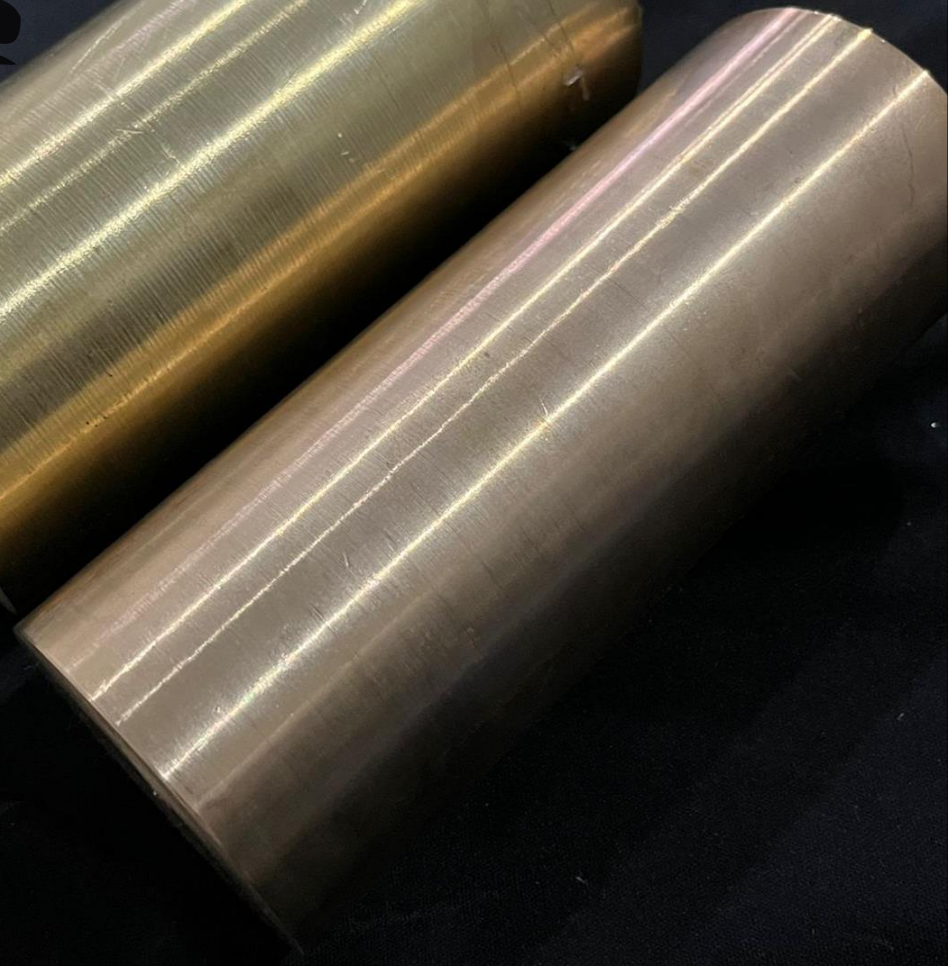

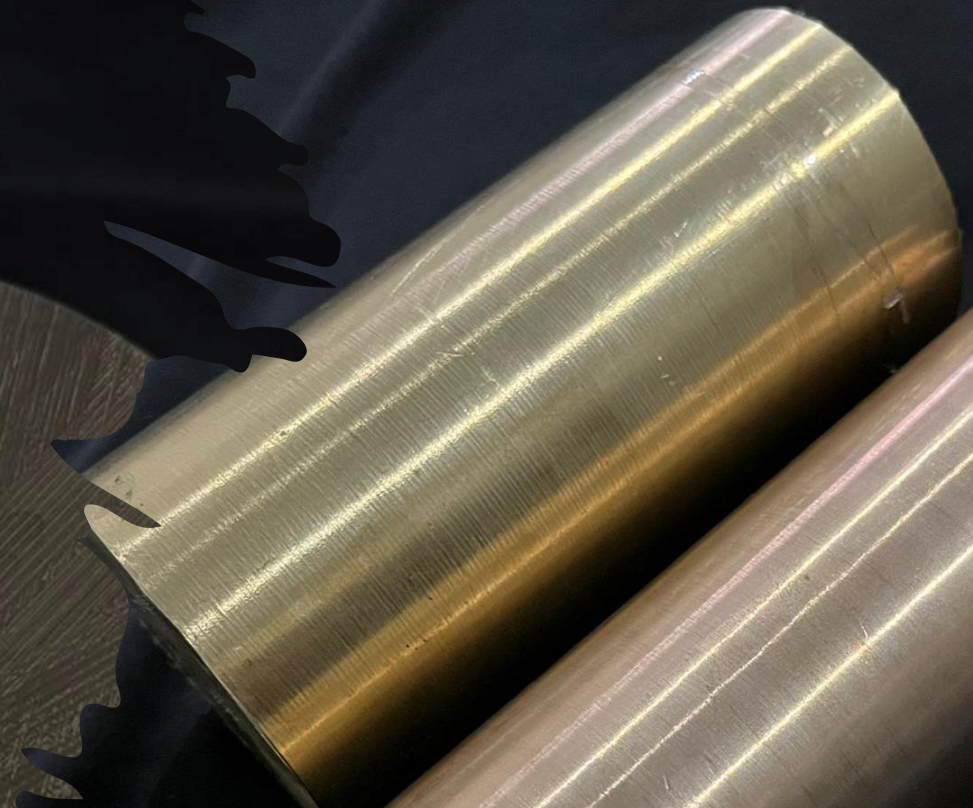

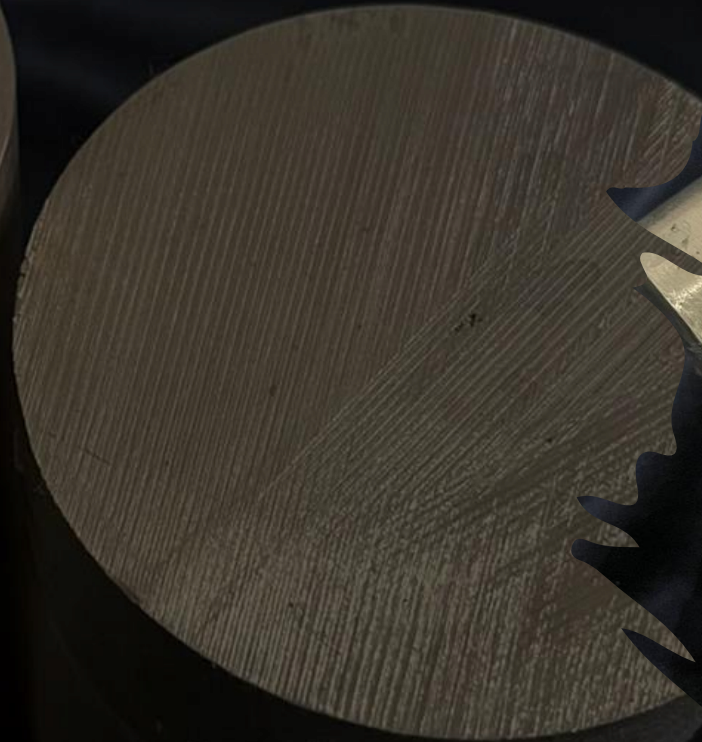

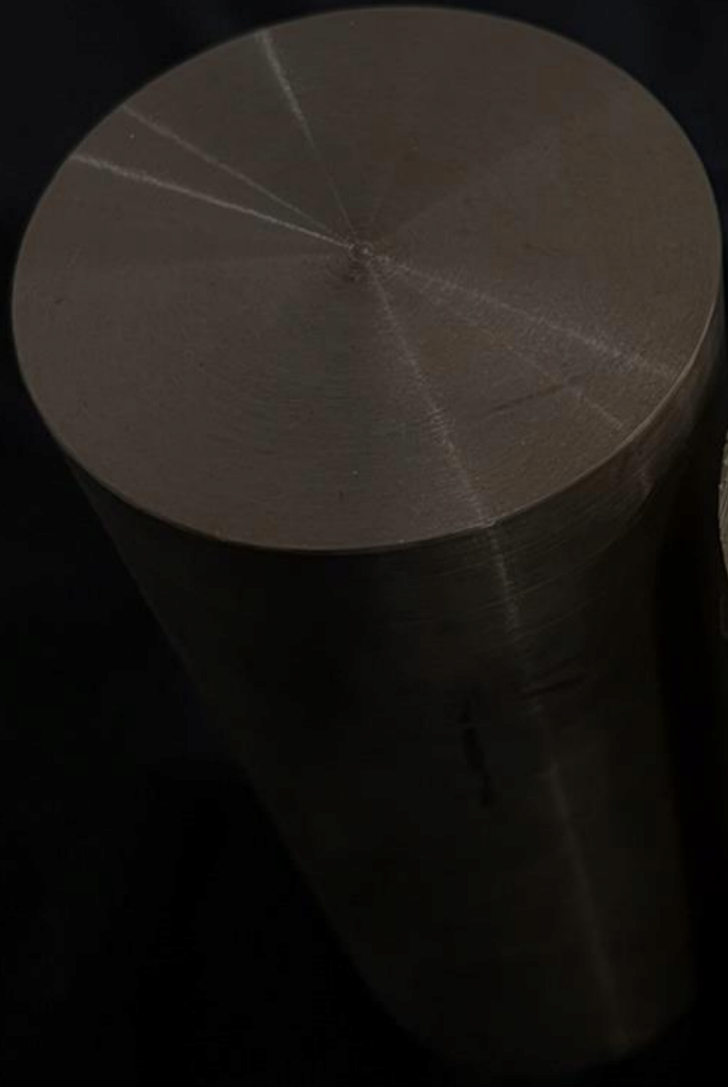

The image shows two circular metal discs, likely made of bronze, positioned side-by-side. The disc on the left is dark and has a central hole with a raised, conical protrusion. The disc on the right is lighter in color and also has a central hole. Both discs exhibit radial lines, suggesting they were turned on a lathe. The background is dark and textured.
